Network Concept

Dear passengers,

whether it's the train, S-Bahn (city railway), tram or bus – since 20 years the Mitteldeutsche Verkehrsverbund (MDV) combines the benefits of all twenty public transit companies in the transit network area into one unified transport system. Standardised tickets, comprehensive service offerings, coordinated schedules and information, and joint services with the partner transit companies all help move MDV passengers forward faster!

One ticket, all inclusive: within the MDV you can use the train, S-Bahn, tram and bus with just one ticket, and easily switch between different modes of transport – no matter where you bought your MDV ticket or how often you want to switch.

Fare Zones

The MDV transit network area consists of numbered fare zones. There are also local municipal transit services in each of the region's cities. Each fare zone has a corresponding price level.

An overview of our entire transit network area, including all fare zones and city transit routes, is available on the foldout inside the back cover of this brochure.

3 Steps to Obtain Your Ticket

Whether you use the train, S-Bahn, tram, bus, or even several different modes of transport on your route, you only need one ticket!

Q

Selection of Ticket Type and Price Level:

Select your ticket according to the following criteria:

How often would you like to travel (daily, occasionally, just a single trip)?

Do you ride alone or in a group? How old are the passengers?

Price is determined by the number of zones traveled. Start and end zones are each one zone.

2

Buying Tickets:

MDV tickets are available from transit staff on the bus, transit company service points, ticket machines, and certain retail shops, as well as via **MOOVME**, DB Navigator, FAIRTIQ or LeipzigMOVE.

3

Validating Tickets:

Tickets purchased in advance must be validated before boarding.

Tip:

Even easier: find our connection planner and fare information at www.mdv.de.

Is the point of sale at the train station closed, or is the ticket machine not operational? Are you unable to acquire a ticket for other reasons?

In this case report immediately to the service personnel that is available on the train for assistance and to purchase your ticket without additional fees.

Ticket validation

Single tickets, 4-trip tickets and 24-hours tickets bought in advance must be validated at the ticket validation machine on the platform (train/S-Bahn) or inside the vehicle (tram/bus) before you start your journey.

Single tickets or 24-hours tickets bought from ticket machines in vehicles will already be validated, 4-trip tickets must be validated.

ATTENTION: Tickets from the ticket machines in the vehicles of HAVAG must be validated.

MOOVME offers schedule information, ticket sales and more for bus, tram and rail – **conveniently on your smartphone**.
